Notes to Interim Condensed Consolidated Financial Statements

September 30, 2020 and 2019 and December 31, 2019

(Unaudited - in Canadian dollars)

1 Nature of operations, going concern and COVID-19

Sama Resources Inc. (“Sama” or the “Company”) is a Canadian-based mineral exploration and development business with activities in West Africa. The Company was incorporated on July 11, 2006 under the Business Corporations Act of British Columbia. On May 13, 2013, the Company continued its jurisdiction of incorporation from British Columbia into the federal jurisdiction of Canada under the Canada Business Corporations Act. The Company’s head office is located at #132 – 1320 Graham Blvd., Mont-Royal, Quebec, Canada, H3P 3C8. The Company’s common shares are listed on the TSX Venture Exchange (the “TSX-V”) under the trading symbol “SME.V”. Based on the information available to date, the Company has not yet determined whether its mineral properties contain economically recoverable reserves. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete exploration and development programs and, ultimately, upon future profitable production.

These interim condensed consolidated financial statements were authorized for publication by the Board of Directors on October 29, 2020.

The Company’s exploration and evaluation assets are located in the Republic of Ivory Coast (“Ivory Coast”) West Africa, and hence are subject to the risks normally associated with foreign investment including unanticipated changes in taxes and royalties, renegotiation of contracts, foreign currency fluctuations and political uncertainties.

Going concern uncertainty

These interim condensed consolidated financial statements have been prepared on a going concern basis, which presumes the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business for the foreseeable future. The use of these principles may not be appropriate. The Company is in its early stages, and as is common with similar companies, it raises financing for its exploration and evaluation activities. As at September 30, 2020, the Company has an accumulated deficit of \$13,499,867 (December 31, 2019 – \$2,285,933) and a working capital of \$2,731,048 (December 31, 2019 – \$11,811,843), including cash and cash equivalents of \$2,533,065 (December 31, 2019 – \$5,203,928). To date, the Company has financed its cash requirements primarily by issuing common shares or units. The Company’s ability to continue as a going concern is subject to its ability to raise additional financing or reduce its expenditure levels. The Company’s discretionary activities do have some scope for flexibility in terms of the amount and timing of expenditures, and to a certain extent, expenditures may be adjusted accordingly.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period. Management has assessed its liquidity needs and estimates that these funds will not be sufficient to meet the Company’s obligations, budgeted expenditures and commitments through September 30, 2021. Based on the extent of the Company’s current stage and anticipated plan, the Company will need to raise additional financing within the next 9-12 month, and those facts cast significant doubt on the Company’s ability to continue as a going concern. While Management has been successful in securing financing in the past, there can be no assurance it will be able to do so in the future, that such sources of funding will be available to the Company or that they will be available on terms acceptable to the Company.

Sama Resources Inc.

Notes to Interim Condensed Consolidated Financial Statements

September 30, 2020 and 2019 and December 31, 2019

(Unaudited - in Canadian dollars)

If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in these consolidated financial statements.

These interim condensed consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

COVID-19

The COVID-19 outbreak was declared a pandemic by the World Health Organization. During this period of uncertainty, the Company priority is to safeguard the health and safety of personnel and host communities, support and enforce government actions to slow the spread of COVID-19, and to continually assess and mitigate the risks to the business operations.

The Company has implemented a COVID-19 response plan that includes a number of measures to safeguard against the spread of the virus at its offices and sites. In addition, the Company has limited its operations in Côte d'Ivoire to preserve cash. The Company cannot provide assurance that there will not be disruptions to its operations in the future. If the Company's operations are impacted or expected to be impacted, the Company will seek additional measures to preserve cash, including suspension of discretionary spending and other legal means to reduce and minimize contractual spending.

2 Basis of presentation and significant accounting policies

Basis of presentation

The Company's interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim statements, including IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB").

The accounting policies followed in these interim condensed consolidated financial statements are consistent with those applied in the Company's annual consolidated financial statements for the year ended December 31, 2019, except for new accounting standards adopted in 2020 (Note 3). These interim condensed consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2019 which have been prepared according to IFRS as issued by the IASB.

Basis of measurement

These interim condensed consolidated financial statements have been prepared on a historical cost basis. In addition, these interim condensed consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Sama Resources Inc.

Notes to Interim Condensed Consolidated Financial Statements

September 30, 2020 and 2019 and December 31, 2019

(Unaudited - in Canadian dollars)

Basis of consolidation

In addition to the Company, the interim condensed consolidated financial statements include all subsidiaries. Subsidiaries are all corporations over which the Company is able, directly or indirectly, to control financial and operating policies, which is the authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. Inter-company transactions and balances are eliminated upon consolidation. They are deconsolidated from the date that control by the Company ceases. Any retained interest is measured to its fair value with the change in carrying amount recognized in income or loss. The fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or joint venture.

The Company's subsidiaries, all of which are wholly-owned, are as follows:

	Jurisdiction of incorporation	Ownership 2020 %	Ownership 2019 %
Sama Nickel Corporation ("Sama Nickel")	Canada	100	100
Sama Nickel Côte d'Ivoire SARL ("Sama CI")	Ivory Coast	100	100
Société Minière du Tonkpi SARL ("SMT")	Ivory Coast	100	100
Sama Resources International Inc. ("SRI")	Caymans Island	-	100
Sama Resources Development Inc. ("SRDI")	Caymans Island	100	-
Sama Resources Liberia Inc. ("SRL")	Liberia	100	-

During the three-month period ended September 30, 2020, the Company sold its subsidiary Sama Resources International Inc. located in Caymans Island. Since this subsidiary was inactive, there was no impact on the consolidated financial statements following this transaction.

3 Changes in accounting policies

Accounting standards and interpretations issued and in effect

IAS 1, Presentation of Financial Statements and IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors

On January 1, 2020, the Company adopted IAS 1, Presentation of Financial Statements ("IAS 1") and IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors ("IAS 8") which refines the definition of materiality and clarifies its characteristics. The revised definition focuses on the idea that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

The adoption of IAS 1 and IAS 8 had no impact on the interim condensed consolidated financial statements.

Sama Resources Inc.

Notes to Interim Condensed Consolidated Financial Statements

(Unaudited - in Canadian dollars)

IFRS 3, Business Combinations (“IFRS 3”)

On January 1, 2020, the Company adopted IFRS 3, Business Combinations, which clarifies the definition of a business. The amendments help entities determine whether an acquisition made is of a business or a group of assets. The amended definition emphasizes that the output of a business is to provide goods and services to customers, whereas the previous definition focused on returns in the form of dividends, lower costs or other economic benefits to investors and others. The amendments also introduce an optional "concentration test" that can lead to a conclusion that the acquisition is not a business combination.

The adoption of IFRS 3 had no impact on the interim condensed consolidated financial statements.

4 Bridge loan

The Company has a bridge loan of \$700,000 with SRG Mining Inc. ("SRG"), an associate. The loan bears interest at 10% per annum and is repayable on December 31, 2020. As at September 30, 2020, \$741,041 remains unpaid including accrued interest revenue of \$41,041. Interest totaling \$53,562 were received on March 9, 2020.

5 Convertible debenture

The Company entered into an unsecured Convertible Debt Agreement with SRG whereby the Company makes available to SRG a credit facility of up to US\$5,000,000 for a twelve-month period. The convertible debenture bears interest at an annual rate of 10% payable at maturity either in cash or common shares of SRG, at the discretion of SRG. The number and terms of the common shares issued to pay such accrued interest will be based upon a price per common share that is not less than the market price of the common shares at the time the accrued interest becomes payable. The principal amount of the convertible debenture is convertible into common shares of SRG at a conversion price of \$0.91, at the election of the Company. Upon a conversion, the US\$ principal amount will be converted in Canadian dollars based on the prevailing spot rate.

On August 7, 2019, the Company advanced an amount of US\$1,000,000 (\$1,330,400) to SRG as part of this Convertible Debt Agreement. For accounting purposes, the convertible debenture investment is recognized at Fair value through Profit or Loss ("FVTPL"). At inception, the convertible debenture was recorded at the equivalent of cash consideration paid. As at December 31, 2019, the fair value of the convertible debenture decreased to \$1,161,978 resulting in a loss on fair value of \$168,422, recorded in the consolidated statement of loss and comprehensive loss, for the period from August 7, 2019 to December 31, 2019. In addition, accrued interest of US\$40,068 (\$52,153) were recognized.

On April 2, 2020, the Company agreed to convert its convertible debenture of US\$1,000,000 (\$1,416,970) at a conversion price of \$0.91 per common share in exchange for 1,557,110 common shares of SRG. A gain on fair value of \$254,992 was recorded in the interim condensed consolidated statement of loss and comprehensive loss.

6 Warrants

On March 3, 2020, the Company acquired 250,000 units of SRG at a price of \$0.50 per unit for a total investment of \$125,000. Each unit comprises one common share of SRG and one non-transferable share purchase warrant. Each whole warrant entitles the holders to purchase, for a period of 36 months from the date of closing, one additional common share of SRG at an exercise price of \$1.00 per warrant. The fair value of the warrants of \$46,557 was determined using the Black & Scholes valuation model based on a share price of \$0.50, a risk-free interest rate of 0.99%, a volatility of 83.3% and an expected life of 3 years.

At September 30, 2020, the fair value of the warrants of \$37,273 was determined using the Black & Scholes valuation model based on a share price of \$0.47, a risk-free interest rate of 0.23%, a volatility of 86.8% and an expected life of 2.42 years.

8 Investment in associate

The Company has an investment in associate giving it significant influence over SRG.

On June 14, 2019, the Company has entered into a share purchase agreement to sell 8,300,000 common shares of SRG to a third party for an aggregate purchase price of US\$5,000,000. The Company has classified this portion of its investment in an associate as an asset held for sale (Note 9). Management determined that significant influence remained unchanged and therefore continued to apply the equity method of accounting for the retained interest.

During the year ended December 31, 2019, SRG issued a total of 1,125,000 common shares for total proceeds of \$562,500. The Company's ownership in SRG went from 23.56% to 23.19%. Therefore, the Company recorded a loss on dilution of \$179,774 on the deemed disposal of a portion of its ownership interest. In addition, the Company determined that impairment indicators led to the recognition of an impairment loss in respect to its net investment in an associate. An impairment loss of \$6,550,000 was recognized in the consolidated statement of loss and comprehensive loss.

During the three-month period ended March 31, 2020, SRG issued a total of 5,661,493 units for total proceeds of \$2,798,887 under which the Company acquired 250,000 units of SRG at a price of \$0.50 per unit for a total investment of \$125,000. Each unit comprises one common share of SRG and one non-transferable share purchase warrant (Note 6).

Following these transactions, the Company's ownership in SRG went from 23.19% to 21.79%. Therefore, the Company recorded a loss on dilution of \$656,774 on the deemed disposal of a portion of its ownership interest, in the interim condensed consolidated statement of loss and comprehensive loss. In addition, the Company determined that impairment indicators led to the recognition of an impairment loss in respect to its net investment in associate. Therefore, an additional impairment loss of \$6,260,665 was recognized in the interim condensed consolidated statement of loss and comprehensive loss.

On March 31, 2020, the Company terminated the share purchase agreement for the sale of the remaining 6,640,000 common shares of SRG (Note 9) given the inability of the third party to fulfill the initial conditions of the agreement. This portion of investment in SRG previously classified as an asset held for sale was reclassified to investment in associate, increasing the Company's ownership in SRG to 30.51%.

On April 2, 2020, the Company agreed to convert its convertible debenture of US\$1,000,000 (\$1,416,970) at a conversion price of \$0.91 per common share in exchange for 1,557,110 common shares of SRG. The Company's ownership in SRG went from 30.51% to 31.90%.

On July 2, 2020, SRG issued a total of 2,060,000 units for total proceeds of \$1,000,000. The Company's ownership in SRG went from 31.90% to 31.07%. Therefore, the Company recorded a loss on dilution of \$259,558 on the deemed disposal of a portion of its ownership interest, in the interim condensed consolidated statement of loss and comprehensive loss.

9 Asset held for sale

On June 14, 2019, the Company has entered into a share purchase agreement to sell 8,300,000 common shares of SRG to a third party for an aggregate purchase price of US\$5,000,000. The sale shall occur in five tranches and is expected to fully close by December 15, 2019. The closing of each tranche is conditional on the full and complete closing of each proceeding tranche in accordance with the agreement. The settlement terms are considered to be a derivative financial instrument because the share price of SRG's common shares is variable, and the purchase price different from the consideration that would be otherwise obtained at each tranche. On initial classification as asset held for sale a derivative financial instrument liability of \$123,500 was recognized in the consolidated statement of financial position. In addition, the Company assessed the carrying amount and the fair value less cost to sell and recognized an impairment of \$3,063,979 in the consolidated statement of loss and comprehensive loss.

On August 5, 2019, a first tranche was completed for an amount of US\$1,000,000 (\$1,321,600) representing a disposal of 1,660,000 common shares of SRG. As a result of this transaction, the Company recorded a reversal of impairment of \$149,400 and a loss on disposal of asset held for sale of \$189,000 in the consolidated statement of loss and comprehensive loss.

As at December 31, 2019, the Company recognized a gain on fair value of a derivative financial instrument of \$283,500 as well as an impairment of \$398,400 in the consolidated statement of loss and comprehensive loss.

On March 31, 2020, the Company terminated the share purchase agreement for the sale of the remaining 6,640,000 common shares of SRG given the inability of the third party to fulfill the initial conditions of the agreement. The Company reclassified as an investment in associate the recoverable amount of this investment which was determined to be \$2,191,200. Therefore, the Company recorded an impairment of \$2,855,200 as well as a loss on fair value of derivative financial instrument of \$160,000.

The continuity of the Company's asset held for sale is as follows:

10 Exploration and evaluation assets

Samapleu property

On January 15, 2009 (“Effective Date”), Sama Nickel entered into a Syndicate Agreement (“SA”) with La Société pour le Développement Minier de la Côte d’Ivoire (“SODEMI”), a parastatal organization, whereby Sama Nickel has indicated a particular interest in the exploration of an area covered by Permit No. 123 (“PR123”), held by SODEMI, located in Ivory Coast. PR123 encompasses approximately 446 square kilometres.

Upon execution of the SA, Sama Nickel became responsible to finance exploration work programs on behalf of the SA during the exploration phase of the project through completion of a Bankable Feasibility Study (“BFS”). SODEMI will not contribute to work conducted under the SA.

On October 25, 2015, Sama Nickel and SODEMI extended certain terms of PR 123 resulting in an exploration license extension to June 25, 2017. On June 9, 2017, before the license extension expired, Sama Nickel and SODEMI filed a request for a Mining Permit (Permis d’Exploitation (PE)) for an area of 160 square kilometres within the Samapleu exploration license as well as a request for an Exploration Permit (Permis de Recherche (PR)) for the remaining area of the Samapleu PR123, located west of the PE.

In March 2018, following discussions with the government, SODEMI withdrew its application for a Mining Permit and applied for two (2) new exploration permits covering a total area of 318 square kilometers (Samapleu-East and Samapleu-West) to replace the PR123. According to a new regulation in Ivory Coast, classified forests must be removed from any new application. Therefore, the total surface areas covered by the two (2) new applications is smaller than the initial area covered by the PR123. No exploration and evaluation work was performed on the classified forest area. Therefore, no partial impairment was required.

On June 19, 2019, the two (2) new exploration permits, Samapleu East (PR838) and Samapleu West (PR839) which cover 318 square kilometers, were granted to SODEMI. Both PRs expire on June 19, 2023, with possible renewal periods totaling up to 12 years. In accordance with both PRs, Sama Nickel agreed to complete an exploration program evaluated at F CFA 2,315,000,000 for PR838 (approximately \$5,530,736 as at September 30, 2020) and F CFA 760,000,000 for PR 839 (approximately \$1,815,706 as at September 30, 2020) before the term of the exploration permits.

Upon completion of the BFS, the Advisory Committee (“AC”), which consists of two Sama Nickel representatives and two SODEMI representatives, will conclude on the feasibility of the project. If the AC decides to proceed with the project, an Exploitation Entity (“EE”) will be established whereby future funding will be split between Sama Nickel and SODEMI at 66.7% and 33.3%, respectively. The EE will reimburse SODEMI for all costs associated with previous exploration work conducted until January 15, 2009 up to a maximum of F CFA 834,999,457 (approximately \$1,994,886 as at September 30, 2020) and will reimburse Sama Nickel for costs associated with exploration work conducted between the Effective Date and the approval of the BFS subject to the approval of the AC which represents a total amount of \$23,042,015 as at September 30, 2020.

On September 20, 2019, Sama Nickel and SODEMI signed an amendment to the SA under which the parties confirm the immediate and direct interest of Sama Nickel and SODEMI at 66.7% and 33.3% respectively in the two (2) new exploration permits and this notwithstanding any future request for an exploitation permit. The ownership of the EE shall be allocated as follows:

11 Loan payable

As a result of COVID-19, the Canadian federal government created the Canada Emergency Business Account (“CEBA”) program, designed to provide some financial assistance to qualifying Canadian companies. The Company applied for this funding and received \$40,000 as an unsecured, non-interest-bearing demand loan. This loan is due on or before December 31, 2022. If the Company repays \$30,000 by December 31, 2022, a balance of \$10,000 will be forgiven. If on December 31, 2022, the Company has not repaid the \$30,000, it may exercise the option for a 3-year term extension and, accordingly, a 5% interest rate will be applied during this extension period on any balance remaining.

16 Commitments

- a) Sama signed a technology license agreement with CVMR Corporation (CVMR). Under the terms of the agreement, CVMR grants Sama use of its technology to refine the mineralized material from the Samapleu property in Ivory Coast, West Africa, to produce nickel and iron powders. In consideration of the technology license, Sama has agreed to pay CVMR \$5,000,000 either in cash or, subject to approval from the TSX-V, through the issuance of an equivalent value of common shares of Sama within 90 days of the granting of the mining license. Share price will be based on the average closing price of those shares on the exchange for each day during the three months of trading prior to issuance. In addition, CVMR will receive a royalty equal to 15% of the sale price of metal powders produced by the plants in excess of the London Metal Exchange (“LME”) price of the elements contained in such powders.
- b) On October 23, 2017, the Company entered into a binding term sheet in view of forming a strategic partnership with HPX TechCo Inc. (“HPX”), in order to develop its nickel-copper and cobalt project in Ivory Coast, West Africa.

As part of the term sheet, HPX would make a strategic investment of \$5,250,000 by acquiring a total 25,000,000 units at a price of \$0.21 per unit, with each unit consisting of one common share and one share purchase warrant. Each warrant will entitle HPX to purchase an additional common share at a price of \$0.28 per common share for 24 months following the closing date. If exercised, these warrants would represent an additional investment of \$7,000,000 for a total investment, by HPX, of \$12,250,000. HPX would also have the ability to earn, through a joint venture with the Company, up to a 60% interest in the Company's Ivory Coast projects, including the Samapleu project, by financing exploration and evaluation expenses and completing a feasibility study through total investments of \$30,000,000. The private placement of \$5,250,000 and the exercise of warrants of \$7,000,000 would be considered part of this total investment of \$30,000,000.

Highlights of the term sheet include the following:

- HPX will have a pre-emptive/anti-dilution right to maintain its ownership percentage in the Company in future equity financings as long as the holdings of common shares of the Company by HPX and its affiliates remains above 10%;
- HPX will have the right, but not the obligation, to nominate and have appointed: (i) two directors to the board of the Company as long as its shareholding in the Company remains above 10%; and (ii) four directors if its shareholding is greater than 50%;
- HPX would earn into the Ivory Coast project through Sama Nickel as the joint venture vehicle;
- Pursuant to the terms of the earn-in and joint venture agreement, HPX shall have the ability to earn a 30% interest in the Ivory Coast project by incurring expenditures of \$15,000,000. By incurring additional expenditures of \$15,000,000 (or, as may be the case, \$10,000,000 in certain circumstances discussed as follows) over a maximum of 6 years, including the financing of a bankable feasibility study and the acquisition of an exploitation permit on part of the Ivory Coast project, HPX will be entitled to earn an additional interest in the Ivory Coast project, such that its aggregate interest therein shall be 60%;

- If certain conditions related to the SODEMI/Sama Nickel joint venture are not met by an outside date (the earn-in adjustment date), then HPX shall have a period of one month after the earn-in adjustment date to notify the Company in writing as to whether or not it wishes to proceed with the 60% earn-in on the totality of the Ivory Coast project for:
 - i. A reduced additional expenditure of \$10,000,000 (instead of \$15,000,000) in order to earn its additional 30% interest in all of the Ivory Coast project;
 - ii. Or an additional expenditure of \$5,000,000 (instead of \$10,000,000) in order to earn its additional 30% interest in the Ivory Coast project excluding the Samapleu project after the Company has transferred the Samapleu project from Sama Nickel to the Company or an affiliate.

On April 13, 2018, the Company issued a total of 25,000,000 units at a price of \$0.21 per unit for total proceeds of \$5,250,000. On June 11, 2019 and December 18, 2019, HPX exercised a total of 25,000,000 warrants at a price of \$0.28 per share for total proceeds of \$7,000,000.
