Notes to Interim Condensed Consolidated Financial Statements

June 30, 2021 and 2020 and December 31, 2020

(Unaudited - in Canadian dollars)

1 Nature of operations and going concern

Sama Resources Inc. (“Sama” or the “Company”) is a Canadian-based mineral exploration and development business with activities in West Africa. The Company was incorporated on July 11, 2006 under the Business Corporations Act (British Columbia). On May 13, 2013, the Company continued its jurisdiction of incorporation from British Columbia into the federal jurisdiction of Canada under the Canada Business Corporations Act. The Company’s head office is located at #132 – 1320 Graham Blvd., Mont-Royal, Quebec, Canada, H3P 3C8. The Company’s common shares are listed on the TSX Venture Exchange (the “TSX-V”) under the trading symbol “SME.V”. Based on the information available to date, the Company has not yet determined whether its mineral properties contain economically recoverable reserves. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete exploration and development programs and, ultimately, upon future profitable production.

These interim condensed consolidated financial statements were authorized for publication by the Board of Directors on August 26, 2021.

The Company’s exploration and evaluation assets are located in the Republic of Ivory Coast (“Ivory Coast”) and Liberia in West Africa, and hence are subject to the risks normally associated with foreign investment including unanticipated changes in taxes and royalties, renegotiation of contracts, foreign currency fluctuations and political uncertainties.

Going concern uncertainty

These interim condensed consolidated financial statements have been prepared on a going concern basis, which presumes the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business for the foreseeable future. The use of these principles may not be appropriate. The Company is in its early stages, and as is common with similar companies, it raises financing for its exploration and evaluation activities. As at June 30, 2021, the Company has an accumulated deficit \$14,410,460 (December 31, 2020 – \$13,771,410) and a working capital of \$3,451,209 (December 31, 2020 – \$2,114,166), including cash and cash equivalents of \$3,224,473 (December 31, 2020 – \$2,117,842). To date, the Company has financed its cash requirements primarily by issuing common shares or units. The Company’s ability to continue as a going concern is subject to its ability to raise additional financing or reduce its expenditure levels. The Company’s discretionary activities do have some scope for flexibility in terms of the amount and timing of expenditures, and to a certain extent, expenditures may be adjusted accordingly.

In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period. Management has assessed its liquidity needs and estimates that these funds will not be sufficient to meet the Company’s obligations, budgeted expenditures and commitments through June 30, 2022. Based on the extent of the Company’s current stage and anticipated plan, the Company will need to raise additional financing within the next 9-12 month, and those facts cast significant doubt on the Company’s ability to continue as a going concern. While Management has been successful in securing financing in the past, there can be no assurance it will be able to do so in the future, that such sources of funding will be available to the Company or that they will be available on terms acceptable to the Company.

Sama Resources Inc.

Notes to Interim Condensed Consolidated Financial Statements

June 30, 2021 and 2020 and December 31, 2020

(Unaudited - in Canadian dollars)

If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in these consolidated financial statements.

These interim condensed consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

2 Basis of presentation and significant accounting policies

Basis of presentation

The Company's interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim statements, including IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB").

The accounting policies followed in these interim condensed consolidated financial statements are consistent with those applied in the Company's annual consolidated financial statements for the year ended December 31, 2020. These interim condensed consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2020 which have been prepared according to IFRS as issued by the IASB.

Basis of consolidation

In addition to the Company, the interim condensed consolidated financial statements include all subsidiaries. Subsidiaries are all corporations over which the Company is able, directly or indirectly, to control financial and operating policies, which is the authority usually connected with holding majority voting rights. Subsidiaries are fully consolidated from the date on which control is acquired by the Company. Inter-company transactions and balances are eliminated upon consolidation. They are deconsolidated from the date that control by the Company ceases. Any retained interest is measured to its fair value with the change in carrying amount recognized in income or loss. The fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or joint venture.

The Company's subsidiaries, all of which are wholly-owned, are as follows:

	Jurisdiction of incorporation
Sama Nickel Corporation ("Sama Nickel")	Canada
Sama Resources Quebec Inc. ("SRQ") ^(a)	Canada
Sama Nickel Côte d'Ivoire SARL ("Sama CI")	Ivory Coast
Société Minière du Tonkpi SARL ("SMT")	Ivory Coast
Sama Resources Development Inc. ("SRDI")	Caymans Island
Sama Resources Liberia Inc. ("SRL")	Liberia

(a) Incorporated on June 2, 2021.

3 Future accounting policies

Accounting standards and interpretation issued but not yet adopted

Amendment to IAS 1 – Classification of Liabilities as Current or Non-current

In January 2020, the IASB amended IAS 1, Presentation of Financial Statements, to clarify the criterion for classifying a liability as non-current relating to the right to defer settlement of the liability for at least twelve months after the reporting period. The amendments are effective for annual reporting periods beginning on or after January 1, 2022, with earlier application permitted. The Company does not expect any impact in its consolidated financial statements upon adoption of this amendment.

Amendments to IAS 16 – Property, plant and equipment

The IASB has made amendments to IAS 16 Property, plant and equipment, which will be effective for financial years beginning on or after January 1, 2022. Proceeds from selling items before the related item of Property, plant and equipment is available for use should be recognized in profit or loss, together with the costs of producing those items. The Company will therefore need to distinguish between the costs associated with producing and selling items before the item of Property, plant and equipment (pre-production revenue) is available for use and the costs associated with making the item of Property, plant and equipment available for its intended use. For the sale of items that are not part of a company's ordinary activities, the amendments will require the Company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statement of loss and comprehensive loss. The Company does not expect any impact in its consolidated financial statements upon adoption of this amendment.

Amendments to IAS 12 – Income Taxes

The IASB amended IAS 12, Income Taxes to specify how a company accounts for income tax, including deferred tax, which represents tax payable or recoverable in the future. In specified circumstances, companies are exempt from recognising deferred tax when they recognise assets or liabilities for the first time. Previously, there had been some uncertainty about whether the exemption applied to transactions such as leases and decommissioning obligations—transactions for which companies recognise both an asset and a liability. The amendments clarify that the exemption does not apply and that companies are required to recognise deferred tax on such transactions. The aim of the amendments is to reduce diversity in the reporting of deferred tax on leases and decommissioning obligations. The amendments are effective for annual reporting periods beginning on or after 1 January 2023, with early application permitted. The Company does not expect any impact in its consolidated financial statements upon adoption of this amendment.

During the six-month period ended June 30, 2021, a depreciation expense of \$12,071 (December 31, 2020 – \$24,231) was recorded in the interim condensed consolidated statement of loss and comprehensive loss and \$163,396 (December 31, 2020 – \$316,632) was recorded under exploration and evaluation (“E&E”) assets.

5 Investment in associate

The Company has an investment in associate giving it significant influence over SRG. At December 31, 2020, the Company owned a total of 24,805,377 common shares in SRG representing an ownership of 31.07%.

During the six-month period ended June 30, 2021, SRG issued a total of 409,900 common shares for total proceeds of \$186,7242. The Company's ownership in SRG went from 31.07% to 30.92%. Therefore, the Company recorded a loss on dilution of \$19,245 on the deemed disposal of a portion of its ownership interest, in the interim condensed consolidated statement of loss and comprehensive loss.

The fair value of the investment in associate as at June 30, 2021 was \$12,402,689 (December 31, 2020 – \$14,387,119).

6 Exploration and evaluation assets

Samapleu property

On January 15, 2009 (“Effective Date”), Sama Nickel entered into a Syndicate Agreement (“SA”) with La Société pour le Développement Minier de la Côte d’Ivoire (“SODEMI”), a parastatal organization, whereby Sama Nickel has indicated a particular interest in the exploration of an area covered by Permit No. 123 (“PR123”), held by SODEMI, located in Ivory Coast. PR123 encompasses approximately 446 square kilometres.

Upon execution of the SA, Sama Nickel became responsible to finance exploration work programs on behalf of the SA during the exploration phase of the project through completion of a Bankable Feasibility Study (“BFS”). SODEMI will not contribute to work conducted under the SA.

In March 2018, SODEMI applied for two (2) new exploration permits covering a total area of 318 square kilometers (Samapleu-East and Samapleu-West) to replace the PR123.

On June 19, 2019, the two (2) new exploration permits, Samapleu East (PR838) and Samapleu West (PR839) were granted to SODEMI. Both PRs expire on June 18, 2023, with possible renewal periods totaling up to 12 years. In accordance with both PRs, Sama Nickel agreed to complete an exploration program evaluated at F CFA 2,315,000,000 for PR838 (approximately \$5,197,342 as at June 30, 2021) and F CFA 760,000,000 for PR 839 (approximately \$1,706,255 as at June 30, 2021) before the term of the exploration permits.

Upon completion of the BFS, the Advisory Committee (“AC”), which consists of two Sama Nickel representatives and two SODEMI representatives, will conclude on the feasibility of the project. If the AC decides to proceed with the project, an Exploitation Entity (“EE”) will be established whereby future funding will be split between Sama Nickel and SODEMI at 66.7% and 33.3%, respectively. The EE will reimburse SODEMI for all costs associated with previous exploration work conducted until January 15, 2009 up to a

maximum of F CFA 834,999,457 (approximately \$1,874,634 as at June 30, 2021) and will reimburse Sama Nickel for costs associated with exploration work conducted between the Effective Date and the approval of the BFS subject to the approval of the AC which represents a total amount of \$23,573,859 as at June 30, 2021.

10 Commitments

(a) On March 19, 2021, the Company has signed the earn-in and joint venture agreement, previously announced on October 23, 2017, with Ivanhoe Electric Inc. or “IVNE” (previously HPX Ivory Coast Holdings Inc. or “HPX”) in order to develop its nickel-copper and cobalt project in Ivory Coast, West Africa.

As part of the agreement, IVNE made a strategic investment for a total amount of \$12,250,000 through the acquisition of 25,000,000 units at a price of \$0.21 per unit for \$5,250,000 and by the exercise of 25,000,000 warrants at a price of \$0.28 per common share for \$7,000,000. In addition, IVNE has the ability to earn, through a joint venture with the Company, up to a 60% interest in the Company's Ivory Coast projects, including the Samapleu project, by financing exploration and evaluation expenses and completing a feasibility study through total investments of \$30,000,000. The strategic investment of \$12,250,000 is considered to be part of this total investment of \$30,000,000.

Highlights of the agreement include the following:

- IVNE will have a pre-emptive/anti-dilution right to maintain its ownership percentage in the Company in future equity financings as long as the holdings of common shares of the Company by IVNE and its affiliates remains above 10%;
- IVNE will have the right, but not the obligation, to nominate and have appointed: (i) two directors to the board of the Company as long as its shareholding in the Company remains above 10%; and (ii) four directors if its shareholding is greater than 50%;
- IVNE would earn into the Ivory Coast project through Sama Nickel as the joint venture vehicle;
- Pursuant to the terms of the earn-in and joint venture agreement, IVNE shall have the ability to earn a 30% interest in the Ivory Coast project by incurring expenditures of \$15,000,000. By incurring additional expenditures of \$15,000,000 (or, as may be the case, \$10,000,000 in certain circumstances discussed as follows) over a maximum of 6 years, including the financing of a bankable feasibility study and the acquisition of an exploitation permit on part of the Ivory Coast project, IVNE will be entitled to earn an additional interest in the Ivory Coast project, such that its aggregate interest therein shall be 60%;

(Unaudited - in Canadian dollars)

- If certain conditions related to the SODEMI/SNC joint venture are not met by an outside date (the earn-in adjustment date), then IVNE shall have a period of one month after the earn-in adjustment date to notify the Company in writing as to whether or not it wishes to proceed with the 60% earn-in on the totality of the Ivory Coast project for:
 - i. A reduced additional expenditure of \$10,000,000 (instead of \$15,000,000) in order to earn its additional 30% interest in all of the Ivory Coast project;
 - ii. Or an additional expenditure of \$5,000,000 (instead of \$10,000,000) in order to earn its additional 30% interest in the Ivory Coast project excluding the Samapleu project after the Company has transferred the Samapleu project from SNC to the Company or an affiliate.

As of June 30, 2021, the Company received from IVNE an amount of \$2,173,195 in cash as part of the earn-in and joint venture agreement thus bringing its cumulative investments to \$14,423,195 as follow:

	June 30, 2021
	\$
Private placement	5,250,000
Exercise of warrants	7,000,000
Payment received as part of the earn-in and joint venture agreement	<u>2,173,195</u>
	<u>14,423,195</u>

The payments received as part of the earn-in and joint venture agreement are recorded as deferred sales proceeds in anticipation of IVNE reaching the \$15,000,000 cumulative threshold which would lead to the formation of a joint venture for the Ivory Coast Project.

(b) On April 30, 2021, the Company signed an agreement with Seahawk Gold Corp. for the acquisition of 100% of the issued and outstanding securities of SRDI which holds 100 % of the issued and outstanding securities of Sama SRL, both subsidiaries of Sama. SRL holds all rights, title and interest in and to the Zwedru South project, St-John River gold project and Nuon project, each of which is located in Liberia, Africa. In consideration for the purchase of SRDI, Seahawk will issue 8.5 million of its common shares to Sama.
